## EXPERIENCE

### Software Developer

#### AH Medical Services

01/2024 - 04/2024 Remote

- Developed a private administration system with inventory management integrated into Cloud Storage , streamlining operational efficiency.
- Designed and managed databases using MySQL , ensuring data integrity and scalability.
- Built the backend using Node.js and implemented Server-Side Rendering (SSR) with React for optimized frontend performance.
- Enabled real-time notifications using Socket.io , enhancing user engagement and system responsiveness.

### Frontend Developer

#### TeamQ

08/2022 - 03/2024 Remote

- Led the web layout design for international projects, implementing responsive and pixel-perfect interfaces using Angular , SASS , and Tailwind CSS.
- Contributed to backend projects on multiple projects, ensuring seamless integration between frontend and backend systems.
- Collaborated effectively in an Agile/SCRUM environment , participating in sprint planning, daily stand-ups, and retrospectives to deliver high-quality solutions.

### Independent International

#### Independent

04/2021 - 05/2021 Location

- Designed logos and developed cohesive color structures to enhance brand clients.
- Implemented editorial content unification , ensuring consistent messaging.
- Structured websites using HTML5 and styled them with CSS3 , delivering fully responsive and visually appealing designs.

### Web E-Commerce

#### AlinDesign

01/2021 - 03/2021 Netherlands

- Designed and implemented responsive models and layouts , ensuring visually appealing and user-friendly interfaces.
- Developed frontend components using ReactJS and Styled Components , enhancing code maintainability and scalability.
- Built and managed server infrastructure and databases using Firebase , ensuring efficient data handling and real-time updates.
- Created robust APIs using Node.js , Express , and Axios , enabling seamless communication between frontend and backend systems.

## EDUCATION

### Specialization in web development

#### Universidad de Margarita (UNIMAR)

01/2019 - 01/2022

- Software engineering
- Universidad de Margarita (UNIMAR)
- Specialization in web development, along with some educational

### Master in Web Development

#### Udemy

01/2021 - 12/2021

- Some projects were made with PHP, SASS and GULP. And final web
- Project for a fictitious company with SQL database, and PHP

### Bootcamp Full Stack

#### youtube.com/midudev

- More than 100 hours of course with different projects where
- Development with NodeJS and Express for the server is implemented
- Different works with NoSQL databases, such as MongoDB and many other dependencies with their projects

## SUMMARY

Full Stack Developer with 3+ years of experience building web applications using JavaScript (React.js, Node.js), Java and SQL databases. Skilled in designing RESTful APIs and optimizing system performance. Proficient in 3D modeling (Blender) and vector illustration (Adobe Illustrator, Figma) to enhance UI/UX designs

## TRAINING / COURSES

### ReactJS course

Youtube.com/midudev

## LANGUAGES

English Intermediate ● ● ● ● ●

Spanish Native ● ● ● ● ●

## SKILLS

Angular	API	API Development		Axios
CSS	CSS3	Firebase	Git	HTML
Java	Logo Design		Mongodb	Mysql
Node	Node.js	Nodejs	Nosql	PHP
Reactjs	SASS	SCRUM	Socket	SQL
SQL Database		Styled-components		Tailwind
